FORM CRS

High Note Wealth, LLC is registered with the Securities and Exchange Commission as an investment adviser and, as such, we provide advisory services rather than brokerage services. Brokerage and investment advisory services and fees differ and it is important for you, our client, to understand the differences. Additionally, free and simple tools are available to research firms and financial professionals at [Investor.gov/CRS](https://investor.gov/CRS), which also provides educational materials about broker-dealers, investment advisers, and investing. This document is a summary of the services and fees we offer to "retail" investors, which are natural persons who seek or receive services primarily for personal, family, or household purposes.

*Conversation Starters:* It is important for you to understand your account, its terms and limitations, and the relationship you have with High Note Wealth, LLC. Each section in this document offers a series of "Key Questions to Ask Your Financial Professional" that offers prompts you may want to ask to further discuss our relationship, our processes and the fees charged for our services.

**What investment services and advice can you provide me?**

We offer the following investment advisory services to retail investors: **Financial Planning Services; Portfolio Management Services; Selection of Other Advisers; and Advisory Consulting Services.** Detailed information regarding our services, fees and other disclosures can be found in our Form ADV Part 2A Brochure Items 4, 7, and 8 by clicking this link <https://adviserinfo.sec.gov/firm/brochure/305768>.

- **Account Monitoring:** If you open an investment account with our firm, as part of our standard service we will monitor your investments no less than quarterly with an offer to meet and review with you annually.
- **Investment Authority:** We manage investment accounts on a **discretionary** basis whereby **we will decide** which investments to buy or sell for your account. You may limit our discretionary authority (for example, limiting the types of securities that can be purchased or sold for your account) by providing our firm with your restrictions and guidelines in writing. We also offer **non-discretionary** investment management services whereby we will provide advice, but **you will ultimately decide** which investments to buy and sell for your account. You have an unrestricted right to decline to implement any advice provided by our firm on a non-discretionary basis.
- **Investment Offerings:** We offer advice on the following types of investments or products: equity securities, corporate debt securities (other than commercial paper), commercial paper, certificates of deposit, municipal securities, variable life insurance, variable annuities, mutual fund shares, United States government securities, money market funds, real estate, REITs, ETFs, private placements and interests in partnerships investing in real estate.
- **Account Minimums and Requirements:** In general, we do not require a minimum dollar amount to open and maintain an advisory account; however, we have the right to terminate your account if it falls below a minimum size which, in our sole opinion, is too small to manage effectively.

**Key Questions to Ask Your Financial Professional**

- **Given my financial situation, should I choose an investment advisory service? Why or Why Not?**
- **How will you choose investments to recommend to me?**
- **What is your relevant experience, including your licenses, education and other qualifications?**
- **What do these qualifications mean?**

**What fees will I pay?**

The following summarizes the principal fees and costs associated with engaging our firm for investment advisory services. For detailed information, refer to our Form ADV Part 2A Brochure, Items 5 and 6 by clicking this link <https://adviserinfo.sec.gov/firm/brochure/305768>.

- **Asset Based Fees** - Payable either quarterly in advance or quarterly in arrears (i.e., after services are rendered). Since the fees we receive are asset-based (i.e. based on the value of your account), we have an incentive to increase your account value which creates a conflict especially for those accounts holding illiquid or hard-to-value assets;
- **Hourly Fees** - Payable after services are rendered.

In addition to our principal fees and costs, there are other common fees and costs that may be applicable to our clients that include:

- Custodian fees;
- Account maintenance fees;
- Fees related to mutual funds and exchange-traded funds;
- Transaction charges when purchasing or selling securities; and
- Other product-level fees associated with your investments

***You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.***

***Key Questions to Ask Your Financial Professional***

- **Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?**

**What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?**

***When we act as your investment adviser***, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means.

- ***Third-Party Payments***: Persons providing investment advice on behalf of our firm are licensed as independent insurance agents. These persons will earn commission-based compensation for selling insurance products. Insurance commissions are separate and in addition to our advisory fees. This practice presents a conflict of interest because they have an incentive to recommend insurance products to you for the purpose of generating commissions rather than solely based on your needs.
- Because our revenue is derived from asset-based fees, we have an incentive to grow your account as much as possible. This could cause us to take overly aggressive positions in conflict with your interests in an attempt to grow your account, or could incentivize us to inflate the valuations of illiquid investments held in your account.

Refer to our Form ADV Part 2A Brochure by clicking this link <https://adviserinfo.sec.gov/firm/brochure/305768> to help you understand what conflicts exist.

***Key Questions to Ask Your Financial Professional***
